

Trolling Master Bornholm 2012

(English version further down)

Fangstrapper jul/nytår.

Det har blæst meget, men der har været huller i vindfelterne, så der er blevet fanget laks i farvandet omkring Bornholm

Per Sjøstrøm fra Nordbornholms Trolling var sammen med Poul Stadler på vandet den 28. december: Laks på 10,35 kg:

(fra www.bornholmstrollingklub.dk)

I kan se deres videooptagelse her: www.youtube.com/watch?v=bRMP4GRixzo

Også fra Simrishamn er der fangstrapper. www.simrishamnstrolling.se fortæller om 10 både på vandet den 31. december, og de ni kom hjem med fangster.

I dagene op til jul skriver Per Lundberg, Wildwater om laks på 10 og 12 kg fanget den 23. december:

Og for at trumfe alle disse rapporter, så er der bekræftet en fangst af en laks på 26 kg i farvandet syd for Bornholm (syd for Bakkerne). Laksen blev fanget af en erhvervsfisker, som TV 2/Bornholm har talt med. Efter rensning vejede den 22 kg !

Der er derfor noget, der tyder på, at der går nogle gamle kæmper i farvandet omkring øen sammen med de store mængder af laks på mellem 8 og 12 kg. Det er den størrelse, som der fanges flest af i øjeblikket.

Sælerne

Deltagerne i TMB 2012 kan formentlig se frem til nye oplevelser. Efter at have været koncentreret på skærene ved Christiansø er der i den seneste tid set sæler hele vejen rundt om øen. Fiskere har mødt sæler på Davids Banke, og der er fotograferet en sæl helt inde ved vestkysten ud for Vang/Teglkås. De er også mødt helt ude på Bakkerne syd for Bornholm.

Efter at have været næsten udryddet omkring Bornholm er der således ved at være en større bestand. I 2009 blev der talt 40 gråsæler på Tat ved Christiansø. I år er der talt 180 sæler samme sted. Måske er bestanden større, fordi der er set sæler så mange forskellige steder.

Det betyder, at erhvervsfiskere med krogliner har oplevet, at kun hoveder fra torsk og laks sidder tilbage på linerne, når sælerne har spist resten.

Tilmelding til TMB 2012

Tilmelding kan ske døgnet rundt på:

www.tv2bornholm.dk/trolling

Betaling sker med Dankort eller internationalt betalingskort. Umiddelbart efter at betalingen er gået igennem, så modtager I en kvittering med et deltagernummer.

Prisen er 750 kr. for en båd med skipper og 150 kr. for hvert af de efterfølgende besætningsmedlemmer. Der skal være mindst to ombord på en båd, og derfor koster det mindst 900 kr. at deltage.

Deltagerantallet er begrænset til 300 både, og tilmeldingen lukker automatisk, når maximum er nået.

Spørgsmål vedr. tilmeldingen sendes til trolling@tv2bornholm.dk

Postkassen bliver kontrolleret i løbet af julen, men I skal ikke regne med sædvanlig hurtig reaktionstid.

Deltagerlisten kan ses her:

www.tv2bornholm.dk/deltagerliste

Trolling Master Bornholm 2012

(English version)

The Christmas/New Year fishing.

It has been quiet windy, but there has been small windows whit opportunities to go trolling. And there are reports on a good catch here and there.

Per Sjøstrøm from Nordbornholms Trolling was out on December 28th with Poul Stadler. The latter is seen here with a 10,35 kg salmon:

(from www.bornholmstrollingklub.dk)

You can see a video from their trip here: www.youtube.com/watch?v=bRMP4GRixzo

From Simrishamn there are also positive reports. www.simrishamnstrolling.se tells about 10 boats on the water on December 31. Nine of them came back with salmons.

In the days leading up to Christmas Per Lundberg from Wildwater writes about two salmons, 10 and 12 kg:

To top all these reports we have a confirmed catch of a salmon weighing 26 kg. It was caught in the waters south of Bornholm (south of the area called Bakkerne). The fish was caught by a professional fisherman, and TV 2/Bornholm has talked with him. After the cleansing the fish was 22 kg !

That could be a sign that there are still some big old fish in the waters together with lots of salmon in the size from 8 to 12 kg. Most salmon caught by trolling fishers have that size.

The Seals

The participants in TMB 2012 may be looking forward to a new experience. In a couple of years a growing number of seals have been living on the small rocky islands close to Christiansø.

Lately reports tells us that the grey seals have been seen around the hole island of Bornholm. Fishermen have met seals on Davids banke. There are photos of a seal swimming along the west coast at Vang/Telkås. And they have been spottet out in the open waters south of Bornholm.

They were almost extinct in these areas but in 2009 40 grey seals were counted on Tat close to Christiansø. This year reports says that there were 180 seals. The numbers might in reality be bigger which is proved by the many sightings around Bornholm.

The professional fishermen now see hooks on their lines with only the head of a salmon or a cod left after a seal have eaten the rest.

Registration

Registration can be done during Christmas on:

www.tv2bornholm.dk/trolling

Payment with international credit cards. When registration and payment goes through you will receive a receipt and your registration number. The registration number starts with number 100 to the first boat.

The boat and captain costs 750 DKK. The following team member costs 150 DKK each. The minimum number of fishermen on a boat is two. This means that the minimum prize is 900 DKK.

The number of boats are limited to 300, and registration closes automatically when that number has been reached.

Updated list on participants here:
